

ground

Ground recessed tread-on fixtures
for led sources.

Suitable for the exploitation
of green areas, arcades and facades,
represent also a valued alternative to
classical lighting in all those contexts
wherein the safety holds a prominent
position, guaranteeing the visibility of
the pedestrian pathways.

led

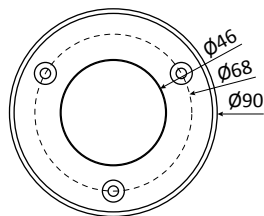

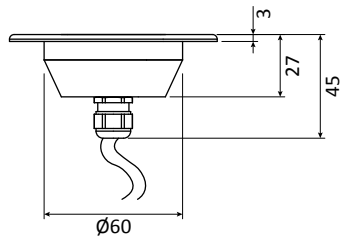

led

ground

Apparecchi da incasso calpestabili
a sorgenti led.

Ideale per la valorizzazione di
aree verdi, porticati e facciate,
costituiscono anche una valida
soluzione all'illuminazione classica in
tutti i casi dove si voglia mettere in
primo piano la sicurezza consentendo
la visibilità dei percorsi pedonali.

Materiali: corpo in alluminio anodizzato naturale,
ghiera in alluminio anodizzato e verniciato a polvere.
Schermo piano in vetro temprato extrachiaro trasparente, spessore 5 mm.
Viteria in acciaio inox

Materials: body made of anodized aluminium natural finish,
ring made of anodized powder coated aluminium alloy.
Flat screen made of transparent extra-clear tempered glass with thickness 5 mm.
Screws made of stainless steel

Cablaggio: fornito di pressacavo in ottone nichelato
e di cavo di alimentazione H05RN-F di L = 500 mm;
circuito di alimentazione per led integrato.
Alimentatore elettronico stabilizzato 24Vdc non incluso

Wiring: complete with cord grip made of nickel-plated brass and H05RN-F L = 500 mm power supply cable; integrated power supply circuit for led. Stabilized 24Vdc electronic driver to be ordered separately.
