Design Ufficio Tecnico

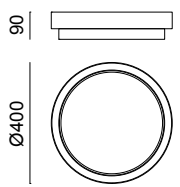

Serie di lampade a luce diffusa da parete, soffitto, terra e sospensione. Il corpo lampada è realizzato da anelli di metallo curvato attraverso i quali filtra una parte di luce creando un'atmosfera soffusa lungo le pareti delle lampade. Finitura verniciato bianco RAL 9010, su richiesta foglia oro. Disponibile anche con illuminazione a LED SMD multi-chip a luce bianca calda. Su richiesta sono disponibili kit per luce colorata nelle versioni rosso o blu.

Collection of lamps giving diffuse lighting, available as wall, ceiling, floor and pendant. The body is made of bent metal rings, letting light filter through to create a soft and pleasant atmosphere. Available in white painted RAL 9010, on request with 24K gold foil. The luminaire can be also electrified with multichip LED SMD in warm white. On request red and blue accessories are available to give coloured light.

Kollektion von Wand-, Decken-, Stand- und Hängeleuchten mit diffuser Lichtverteilung. Struktur aus gebogenen Metallringen, welche eine ganz besondere und gemütliche Atmosphäre schaffen lassen. Verfügbar in weiß lackiert RAL 9010 oder auf Anfrage in blattgold 24K. Die Leuchten sind auch mit LED SMD multichip – warmweiß – erhältlich. Auf Anfrage Farbfilter in rot und blau lieferbar.

Collection de lampes disponibles en applique, plafonnier, lampadaire et suspension pour éclairage diffuse. La structure est caractérisée par des anneaux en métal plié, qui laissent filtrer la lumière en créant une atmosphère agréable. Disponible en vernisé blanc RAL 9010 et, sur demande, en feuille d'or 24K. Disponible aussi dans la version avec LED SMD multichip, blanc chaud. Sur demande on peut fournir de filtres de couleur rouge ou bleu.

Serie de luminarias de luz difusa de pared, techo, pié y suspensión. Estructura de anillos en metal plegado que crean una atmosfera cálida y agradable. Disponible en acabado pintado blanco RAL 9010 y con baño de oro 24K. Disponible tambien con LED SMD multichip en blanco cálido. A pedido filtros colorados en rojo y azul por crear efectos de luz atractiva.

Corpo lampada in metallo infrangibile e facile da pulire, ideale per l'inserimento in contesti quali il contract o grandi forniture.

Body made of unbreakable metal, easy to clean, with a sober yet elegant design that makes it ideal for use in the contract market, without sacrificing style for function.

La posizione degli anelli è studiata per evitare l'abbagliamento laterale, mentre le ampie aperture superiore ed inferiore consentono un notevole flusso luminoso per l'illuminazione generale.

The position of the rings has been duly designed in order to avoid any side dazzling, while the upper and lower openings create a diffuse general lighting.

Disponibili KIT in materiale plastico per colorare la luce laterale, facilmente intercambiabili senza l'ausilio di attrezzi, permettono di personalizzare l'atmosfera.

Kit of soft plastic rings available in different colours, a functional and versatile accessory that literally captures the light and displays it around the room to create a pleasant atmosphere. Easy to fix and/or to change without any tools.
