

CIRCLE WAVE

CIRCLE WAVE ENTRA NELLO SPAZIO CON UN DIFFUSORE IN PMMA TERMOFORMATO SATINATO BIANCO, CAPACE DI DIFFONDERE OMOGENEI SCENARI DI LUCE SOPRA E SOTTO LA LAMPADA. IL DISCO, CUORE INTERNO IN ALLUMINIO, VIENE VESTITO, SENZA MAI PERDERE IN EFFICIENZA E QUALITÀ DI LUCE. I VOLUMI MORBIDI SI PRESTANO AD OFFRIRE DENSITÀ E TRASPARENZE IN UN PERFETTO EQUILIBRIO TRA SUPERFICIE E LUCE EMESSA.
