

BRIDGE

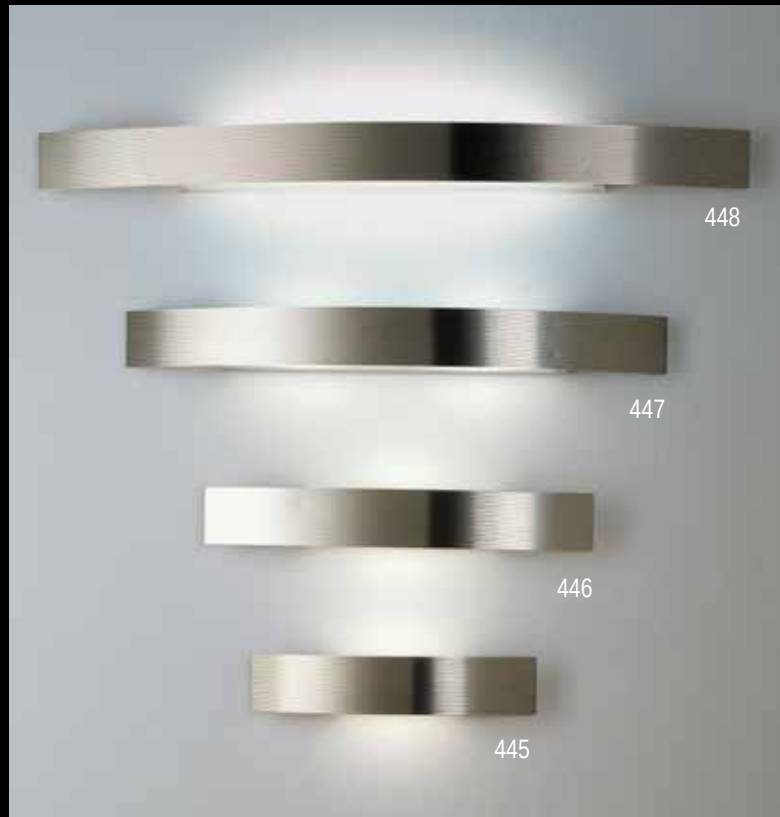

Design SIM

Una collezione modernissima ed elegante, che si sviluppa in sospensioni, plafoniere, appliques e piantane. L'accoppiamento di due diffusori piegati a 90° nella parte sabbiata crea un originale effetto di "vetro nel vetro" le cui aperture costituiscono gli "spioncini" da cui deriva il nome del prodotto.

The most modern and elegant collection, than is developed in suspensions, to plafoniere, appliques and piantana. The connection of two diffusing ones folds to you to 90° in the sabbiata part creates originates them effect of "glass in the glass" whose openings constitute "spioncini" from which drift the name to the product.
