

Egizia

Egizia

Egizia is a range of indoor floodlights in die-cast aluminium painted in white or grey chromed colour. Available for wall or ceiling fixing or for 3-phase Eurostandard electrified tracks like "Novatrack". You can choose different kind of lamps (metal halide or halogen). The orientable joint allows the maximum flexibility of the source guaranteeing a total rotation.

Materials

Body and accessory in die-cast aluminium, polyester painted in white or grey chromed colour.

Reflector in anodized aluminium. Tempered safety glass (R111 lamps versions excluded).

Wiring

Electronic ballast or transformer 220-240V 50/60Hz; rigid cable H05V2-U section 0,75 mm² (CEI 20-20). For 3-phase track Novatrack provided with electro/mechanical adapter. For ceiling/wall fixing provided with socket terminal 2P+T (section max 2,5 mm²). In accordance with standard IEC 598, CEI EN 60598-1 (CEI 34-21).
